

Worth knowing about RIBO detergent

All RIBO's products are the swans label without dyes, parabens and perfume; produced in Denmark

Detergent for colored wash - low foaming

- For colored and gentle washing
- Preserves the colors in the clothes, does not contain bleach
- Contains enzymes that remove dirt and stains
- Washing temperature 30-95 degrees.

Detergent for hot wash - low foaming

- Has a bleaching effect, but is without optical white
- Washing temperature 40-95 degrees.

Wool - low foaming

- For washing wool, silk and bamboo textiles
- Good for impregnated clothing, for example ski suits and flight suits
- For duvets, pillows and down jackets
- Contains lanolin oil - but no enzymes or optical white, which break down lanolin.

Rinse

- Makes clothes softer
- Counteracts static electricity on synthetic clothes.

Recommendation

- It is not recommended to use fabric softener for towels, dishcloths, and rags, as fabric softener reduces the absorbency of the fabric.
